Mrs. Deborah Krupp addressed the school board to voice concern about the paraprofessionals' schedules since their daily schedules were cut by one hour per day. She also said that she appreciates the work the custodial staff does. She said she would like support staff to be treated as well as possible as the school board begins to negotiate its future contract.

APPROVAL OF MINUTES

Mrs. Fiedler made the motion, which Mrs. Crawford seconded, to approve the minutes of the 16 September 2013 regular monthly meeting and the 7 October 2013 special meeting and work session.

Ms. Kreisher questioned why there was not a lot of information being included in the work session minutes. She said she would like there to be narrative for each work session agenda item.

The motion passed by a unanimous voice vote.

APPROVAL OF FINANCIAL REPORTS

Ms. Kreisher made the motion, which Mrs. Fiedler seconded, to approve the financial reports for September 2013. The motion passed by a unanimous voice vote.

OLD BUSINESS

There was no old business to come before the board at this point.

SUPERINTENDENT'S REPORT

Dr. Curry reported that, regarding the football field, the district would begin aerating and reseeding it in the very near future. He said this would be done immediately even though there were two junior high football events and a midget football event remaining. Dr. Curry said that the district could get ahead of this project by three weeks on field maintenance.

Next, Dr. Curry reported on the information he found relative to the proposed pig farm slated to be located two miles west of W.W. Evans Elementary School. He said that he is not overly concerned about safety hazards to students at the school, as the proposed pig farm would be more than two miles from the school, and asked board members if they had any concerns. Mrs. Fiedler said that she had concerns about potential water pollution issues. Mr. Snavely said that from what he knew of the proposed pig farm, he did not have any concerns.

Next, Dr. Curry reported on the proposed variance for the property across from Memorial Elementary School and voiced some concerns he had over that. He then reported that since the board packets went out Friday morning, there had been two staff leave of absence requests and a resignation letter received from the secondary school nurse. These three items, he said, would be on the next school board meeting agenda. Dr. Curry then distributed a chart of the proposed grading system and said this item would appear on the next board work session as a discussion item. Several board members said they felt comfortable with the system, as it's what they had experienced as students. Mr. Mael and Ms. Kreisher expressed concern that there would be grade creep and said that teachers should make classes harder rather than adjust the grading system.

Dr. Curry next reported that the all-call for the phone system at Beaver-Main Elementary School (dialing "777") was not working. In order to remedy this (would need an overhead call system), the cost would be approximately \$4,600. The "777" code was working in the other four schools, Dr. Curry reported. Board members agreed this would be an appropriate expenditure of district funds.

Lastly, Dr. Curry reported on the junior high after-school tutoring (study hall) program available for students who were participating in sports after school. (Some sports are not able to start immediately following school, as many coaches' work schedules will not allow for this.) Dr. Curry said that because of

this tutoring, which goes on from 2:45 – 3:45 p.m., there were no students ineligible due to academic issues this school year. Dr. Curry said that there are times the coach arrives early, and when this occurs, the study hall may be reduced by 15-30 minutes. This program is for junior high football and girls' basketball for this school year. The tutoring is also available to students not in junior high football and girls' basketball, though not advertised to the general middle school populace. Mrs. Crawford asked that since it was not advertised to the entire school if the cost should be added to the cost for junior high football and girls' basketball. Mrs. Crawford said she would like to make this opportunity advertised to all middle school students and she would also like to find out how many students would want to take advantage of this program. Ms. Kreisher said she'd like to make this opportunity made available to all middle school students. Dr. Curry said he would check to see if there was interest and then report back to the school board.

STUDENT REPRESENTATIVE'S REPORT

As Colton Hock was not in attendance, there was no student representative report given at this meeting.
